

Perform – Transform – Together

Project Manager (m/f/x)

Medentika® has become synonymous with the successful development of high-quality products in dental implantology. With a determined, dynamic team, we have been meeting the challenges of this rapidly growing market for over 15 years. Our products are continuously, innovatively developed, manufactured in Calw, Germany and sold to more than 50 markets worldwide.

The world is growing together, we are all connected and you are in the center of it.

"Knowledge and experience are not enough. If you want to make a difference, you need passion."

We are looking for you as our new Project Manager (m/f/x). You will be responsible for a defined group of projects within the product development and launch process and for its registration in major markets. You will be part of a passionate and high performing team. This new position is based in Hügelsheim, Germany and reports to the Group Leader Project Management.

Your tasks

- Coordinate and lead interdisciplinary projects
- Proactively monitor project performance based on KPI's (timeline, scope, budget and resources)
- Maintain effective communication with internal and external stakeholders
- Seek counteractions quickly to address performance gaps, remove obstacles and redirect efforts as needed in collaboration with business partners and subcontractors
- Ensure project documentation according to quality standards and enforce compliance to regulations and internal processes
- Create and ensure a good working environment
- Lead, provide guidance and coaching

Your skills

- Academic degree in engineering, bio/engineering or life science or equivalent experience
- + 2 years experience in project management or related function, preferably in medical device or dental industry, additional experience in development, regulatory or product management is a plus
- Straight forward, performance and result driven personality to achieve objectives and targets
- Emotional intelligence and team-oriented attitude, experienced in leading projects and connecting team members
- Entrepreneurial spirit and strong execution capabilities to achieve pragmatic results
- Proactive person with distinct interpersonal skills to cultivate a network of effective working relationships in an international matrix environment and within the team
- Strong communication and presentation skills
- High level of integrity and commitment
- Solid analytical skills
- Comfort and resistant in working within a dynamic, demanding and global business environment
- Fluent in English and German (written and spoken), any other language is an advantage

Who we're looking for?

Agile Mindset. This is about learning and adapting, continuously improving what we do to deliver a valuable product to our customers. You collaborate and communicate leading to team success

Team player. We love learning from each other, great ideas are shaped and inspired by other ideas in order to achieve the simplest, smartest and safest solution

Innovative. We create space for ideas and love to use the newest technologies. To be cutting edge, we need to stay on top and deliver an amazing digital experience

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, or disability.

We look forward to your application!

Please send us your cover letter, résumé and certificate to job@medentika.de !
